

STRUCTURAL STEEL ERECTION & REPAIR

STRUCTURAL STEEL ERECTION & REPAIR

Structural steel erection has long been a specialty at The Pangere Corporation, along with facility maintenance and repair. We provide erection and repair work for warehouses, commercial developments, educational facilities and other institutions, state, federal and municipal projects, retail establishments and gaming facilities. We provide our customers with round-the-clock emergency response via our advanced communications systems, our equipment and yard facilities, and our trained experienced field staff.
